The goal is to fundraise 30.000 DKK in 2022 for KWERA.

Kwera finances **higher education for African youth** enrolled at local universities and simultaneously develop their employability and entrepreneurship skills. In time, Kwera will become **self-financing** as students who graduate and get employment pay back 10% of their salary for 10 years to finance education for new students.

How: A DKK 488 monthly donation can give a Student Climber a full month of education. This means that donating DKK 5,856 will give one student one full year of education at one of the best local universities in Malawi.

The full information about the fundraising goal and **Kwera** can be sent to those of you who will join – it is a large file, so not something I want to send to everyone.
